

**IN THE 39TH JUDICIAL CIRCUIT OF MISSOURI
BARRY, LAWRENCE & STONE COUNTIES
All Divisions**

**July 1, 2023
Effective July 1, 2023**

IN RE: Access to Case Records Pursuant to Court Operating Rule (COR) 2 specifically updates on remote public access to public documents and redaction of defendant's personally identifiable information effective July 1, 2023, pertaining to the Security Level of Warrants issued prior to July 1, 2023, and served after July 1, 2023

Administrative Order 23AO-02

WHEREAS, the development of *Case.net* has made case-specific information filed with the judicial system of the State of Missouri readily accessible to the public by use of the Internet; and

WHEREAS, this Court determines that it is in the best interest of the administration of justice to raise the security level of all *Served Warrant* documents issued prior to July 1, 2023, and returned after July 1, 2023, to a level that prohibits the public review of the *Served Warrant* on Case.net.

WHEREAS, if any member of the public has a need to review the information contained on these specific *Served Warrants*, that person may go to the county the warrant was issued in and request a redacted copy of the *Served Warrant*.

IT IS THEREFORE ORDERED: by the Court, the security level of the *Served Warrant* documents issued prior to July 1, 2023, and returned after July 1, 2023, shall be raised to a security level 3. Security level 3 will suspend public access to the document but still permit access for court personnel and the attorneys of record on the case.

This Order is effective July 1, 2023, and shall remain in full force and effect until further court order.

SO ORDERED this 30th day of June 2023.

David A. Cole, Presiding Judge
