**Evidence Based Sentencing Practices to Reduce Recidivism**

**Friday, February 26, 2010**

**Country Club Hotel & Spa**

**Lake Ozark, Missouri**

The Missouri Sentencing Advisory Commission, in conjunction with Judicial Education, invites you to attend this important session. We are pleased to have the Honorable Roger Warren, president emeritus of the National Center for State Courts and former Superior Court Judge in Sacramento, California, to lead the discussion.

This one-day curriculum provides an overview of the principles of evidence-based sentencing and assists judges in the development of sentencing practices that improve public safety and reduce the risk of offender recidivism. At the conclusion of this curriculum, participants will be able to:

- identify those offenders who are the most appropriate candidates for recidivism reduction strategies;
- target conditions of probation at the relevant offender characteristics to achieve effective sentencing outcomes;
- improve responses to violations of probation;
- identify the components of effective probation supervision practices and treatment programs; and
- reduce the risk of re-offense through positive interactions with offenders.

Meals and lodging will be provided by the Sentencing Advisory Commission. Lodging will be on a first come basis. Mileage will not be reimbursed. The Country Club Hotel & Spa will extend the discounted conference rate of \$69.00 per night before and after conference, based upon availability, for those who wish to stay at their own expense.

**Please mark your calendar now and plan to attend.**

Further information on registration and lodging, along with the agenda, will be forthcoming as details are finalized. For questions or further information, please contact Julie Upshulte at 573/522-5419 or via email at [Julie.Upshulte@courts.mo.gov](mailto:Julie.Upshulte@courts.mo.gov) or Catherine Zacharias at 573/526-8857 or via email at [Catherine.Zacharias@courts.mo.gov](mailto:Catherine.Zacharias@courts.mo.gov).

Missouri CLE credit is being requested.
