COLLECTOR STANDARDS

MISSOURI GUIDELINES FOR DRUG/ALCOHOL COLLECTIONS

Ten Principles of a Good Testing Program

1. Design an effective drug detection program, place the policies and procedures into written form (treatment court manual) and communicate the details of the drug detection program to the court staff and clients alike.
2. Develop a client contract that clearly enumerates the responsibilities and expectations associated with the court's drug detection program.
3. Select a drug-testing specimen and testing methodology that provides results that are scientifically valid, forensically defensible and therapeutically beneficial.
4. Ensure that the sample-collection process supports effective abstinence monitoring practices, including random, unannounced selection of clients for sample collection and the use of witnessed/direct observation sample-collection procedures.
5. Confirm all positive screening results using alternative testing methods unless the participant acknowledges use.
6. Determining the creatinine concentrations of all urine samples and sanction for creatinine levels that indicate tampering.
7. Eliminate the use of urine levels for the interpretation of client substance-use behavior. A drug test is either positive (drug presence is as or above the cutoff concentration) or negative (none detected; drug level is below the cutoff concentration).
8. Establish drug-testing results interpretation guidelines that have a sound scientific foundation and that meet a strong evidentiary standard.
9. In response to drug-testing result interpretation guidelines that have a sound scientific foundation and that meet a strong evidentiary standard.
10. Understand that drug detection represents only a single supervision strategy in an overall abstinence monitoring program.

ATTACHMENT 1, continued**COLLECTOR MINIMUM STANDARDS**

Any individual who collects specimens for testing acts as an official representative of the court who is required and trusted to work within the law. A collector shall refrain from manifesting bias or prejudice or engage in harassment, including but not limited to bias, prejudice, or harassment based upon race, sex, gender, gender identity, religion, national origin, ethnicity, disability, age, sexual orientation, or marital status.

Qualifications:

1. A minimum of 21 years of age;
2. Legal United States resident or legally eligible to work in the United States;
3. May be subject to drug and alcohol testing by the local drug court;
4. Shall be subject to background checks by the local court at the collector's expense, which will include but may not be limited to: Employment history and references, fingerprint checks for open and closed federal and state criminal records, Sex Offender Registry and the Family Care Safety Registry;
5. DATIA certification and experience are recommended.

Requirements:

1. Provide monitoring function for the team by collecting urine, saliva, breath and/or hair samples;
2. Document contact with participants and forward to the court within a timely manner so information can be used during staffing sessions as determined by the local court team;
3. Be reasonably available to appear in court if requested;
4. Participate in on-going training such as the Essential Elements of Drug Court (allrise.org) and drug collection/detection procedures and tampering techniques;
5. Competent in the procedures of drug and alcohol testing as outlined by the local court;
6. Review and understand the local policy and procedure manual and the agreement between the participant and the court;
7. Have a general understanding of substance use disorder and treatment; and
8. Abide by additional standards, roles and responsibilities set forth by the local court.

Code of Ethics:

1. Abide by all municipal, state and federal statutes;
2. Maintain professionalism at all times and treat participants with dignity and respect;
3. Maintain the confidentiality and privacy of the participant;
4. Duty to report all actions to the court;
5. Any prior relationships with participants or family members must be reported to the team;
6. Shall not loan money, property, co-sign loans or accept gifts, favors or promises from participants or family members;
7. No fraternization with any participant or family members;
8. Shall not establish a personal or business relationship with participants or family members;
9. Shall not be under the influence of drugs or alcohol when performing duties;
10. Shall not monitor participants at AA, NA, or other self-help meetings whose members wish to preserve anonymity; and
11. Shall not observe or obtain urine samples or perform urinalysis testing while conducting home, employment, or other site visits.

ATTACHMENT 1, continued

COLLECTION PROCEDURES

Contracted collectors will be required to follow the procedures below for collection, control and testing of participant urine specimens, which ensures the confidentiality and reliability of all test results:

General Procedures:

1. Collectors shall be the same gender as the participant submitting the specimen.
2. There shall be no physical contact between the collector and participant during specimen collection.
3. Specimen collection shall be in a secure location which provides privacy from other participants, uninvolved staff and sanitary conditions.
4. Collectors will collect urine specimens as directed by the treatment court coordinator/administrator.
5. No participant shall participate in the collection of another participant's urine specimen or have access to collected urine specimens or drug testing equipment and supplies.

Pre-collection:

1. The participants' identity should be confirmed with a valid photo ID.
2. The participant will sign a label and the chain of custody form if the specimen is being submitted to a lab.
3. The participant will be limited to no more than 24 ounces of water within one hour of collection.
4. All staff handling urine specimens will wear protective gloves.
5. Participants will either wash their hands or wear protective gloves prior to and during specimen procurement in order to prevent contamination of urine specimens.
6. Participants will remove clothing from the groin and buttocks areas to ensure devices are not present, which would allow alteration of the urine sample.
7. Any item or substance that could be used to dilute, substitute or adulterate shall be immediately reported to the court.
 - a. Such items may include, but are not limited to the following:
 - (1) containers or vials of liquid or urine that could be utilized to substitute or dilute a participant's urine;
 - (2) devices used to supply substances in lieu of the participant providing a fresh specimen;
 - (3) any contraband such as salt, bleach, iodine, Visine, soap or other substances that could be used to adulterate urine, and
 - (4) any other contraband identified during the collection process.
 - b. A notice of these prohibited items should be included in the participant manual.
 - c. All confiscation of such items should be documented in a report to the court program, along with a photo of the item. If unable to confiscate the item, do not apprehend or attempt to use force. Describe the item in detail in a report to the court.

Collection Process:

1. All collections will be directly observed (witnessed full-frontal).
2. Participants are allowed a maximum of one hour to produce a sample. Those who refuse or fail to produce a urine specimen of at least 30cc (1 oz. or half a bottle) within one hour will be considered a refusal and no further subsequent attempts to collect the sample shall be conducted.
3. Urine should be collected in the standard individual container provided by a laboratory.
 - a. Disposable collection cups may be used to collect urine specimens and then poured into the bottle.

ATTACHMENT 1, continued

COLLECTION PROCEDURES

Post-Collection Process:

1. The sample should be tested for creatinine and temperature (reject if not 90° - 100° F). Other tests may include specific gravity, pH, color and odor to detect possible 'flushing' patterns.
2. The participant will place the cap on the bottle, secure it and rinse the bottle before giving it to the collector.
 - a. The collector will ensure the cap is secured.
 - b. All urine collected for drug testing which is not submitted to the laboratory or used for on-site testing will be disposed of in a toilet and the toilet shall be flushed.
 - c. Urine which is spilled shall be cleaned up promptly with a 10 percent liquid bleach solution or any environmental protection agency approved hospital disinfectant which destroys bacteria.
 - d. The specimen container will be disposed of in a dedicated trash container to which participants do not have access.
3. For specimens submitted to a lab:
 - a. The label will be placed on the container in the presence of the participant.
 - b. The collector should ensure the evidence tape is placed over the container lid immediately following specimen collection.
 - c. The collector must complete the lab form and initiate and sign the chain of evidence section on the day collected.
 - d. Specimens shall be placed in a refrigeration unit within 24 hours in a secured area until transported to a laboratory for analysis.
 - e. The collector will make arrangements for the transportation of all urine specimens sent to a laboratory.
4. When the specimens are forwarded via the U.S. Postal Service or United Parcel Service, the individual relinquishing the specimens will sign the chain of evidence section in the "To" section indicating "USPS" or "UPS."
5. For on-site tests:
 - a. A chain of custody form may be used.
 - b. Confirmation tests should be performed if an on-site test result is questionable or a participant contests the results.
