COLLECTOR STANDARDS

MISSOURI GUIDELINES FOR DRUG/ALCOHOL COLLECTIONS

Ten Principles of a Good Testing Program

1. Design an effective drug detection program, place the policies and procedures into written form (treatment court manual) and communicate the details of the drug detection program to the court staff and clients alike.
2. Develop a client contract that clearly enumerates the responsibilities and expectations associated with the court's drug detection program.
3. Select a drug-testing specimen and testing methodology that provides results that are scientifically valid, forensically defensible and therapeutically beneficial.
4. Ensure that the sample-collection process supports effective abstinence monitoring practices, including random, unannounced selection of clients for sample collection and the use of witnessed/direct observation sample-collection procedures.
5. Confirm all positive screening results using alternative testing methods unless the participant acknowledges use.
6. Determining the creatinine concentrations of all urine samples and sanction for creatinine levels that indicate tampering.
7. Eliminate the use of urine levels for the interpretation of client substance-use behavior. A drug test is either positive (drug presence is as or above the cutoff concentration) or negative (none detected; drug level is below the cutoff concentration).
8. Establish drug-testing results interpretation guidelines that have a sound scientific foundation and that meet a strong evidentiary standard.
9. In response to drug-testing result interpretation guidelines that have a sound scientific foundation and that meet a strong evidentiary standard.
10. Understand that drug detection represents only a single supervision strategy in an overall abstinence monitoring program.

However, it shall be the responsibility of the vendor to ensure their proposal is in the OSCA office (address listed above) no later than the exact end date and time specified in the RFP.
- b. The sealed envelope or container containing a proposal should be clearly marked on the outside with (1) the official RFP number and (2) the official end date and time. Different proposals should not be placed in the same envelope, although copies of the same proposal may be placed in the same envelope.

A proposal which has been delivered to the OSCA office may be modified by signed, written notice which has been received by OSCA prior to the official end date and time specified. - e. In the event all vendors fail to meet the same mandatory requirement in an RFP, OSCA reserves the right, at its sole discretion, to waive that requirement for all vendors and to proceed with the evaluation. In addition, OSCA reserves the right to waive any minor irregularity or technicality found in any individual proposal.
- f. OSCA reserves the right to reject any and all proposals.

If OSCA cancels the contract for breach, OSCA reserves the right to obtain the equipment, supplies, and/or services to be provided pursuant to the contract from other sources and upon such terms and in such manner as OSCA deems appropriate and charge the contractor for any additional costs incurred thereby.
- d. The contractor understands and agrees that funds required to fund the contract must be appropriated by the General Assembly of the State of Missouri for each fiscal year included within the contract period.
